Leakbook Wrote: →
Leader or part of the noob EA "Hack" Team
<https://raidforums.com/User-4c3>

We leak more details and names of the EA "Hack" Team if they don't pay us the owe money

why u mad ? 🤔

spreading false info cause you mad we said you didn't do anything ? 🤔🤔🤔

and btw our name is lapsus

Hello world,

Tomorrow we will publish the main source code we have (the 780GB src code)

We are making this thread for the leak to stay up.

For our security we won't post any mirrors or anything else. please do some. torrents, mega etc...

We still have userdata mainly on sims and the RCE.

For the userdata we will keep it and try to deal a last time with EA.
For the rce, if you have good skills you try to find it by exploiting the src code.

If EA deny our last ransom we will publish the userdata and do a global injection process. we have the exploit ready. signed and stealth.

So if ea ever take a look at this thread.
You have 45 days to get 10% of the amount we requested you and send us the xmr to the address we sent you. (45 days from the leak post time)

We don't accept donations or direct contact.

Do not forget us.

Ministry of Health Brazil - 10 Dez 2021

- "Admin/Leader of the Lapsus group (attack on the Ministry of Health)
- Confirms the participation of an internal agent in investigation
- Internal agent claims to be a former GSI (Institutional Security Office) employee
- Internal agent now works at the Federal Police"

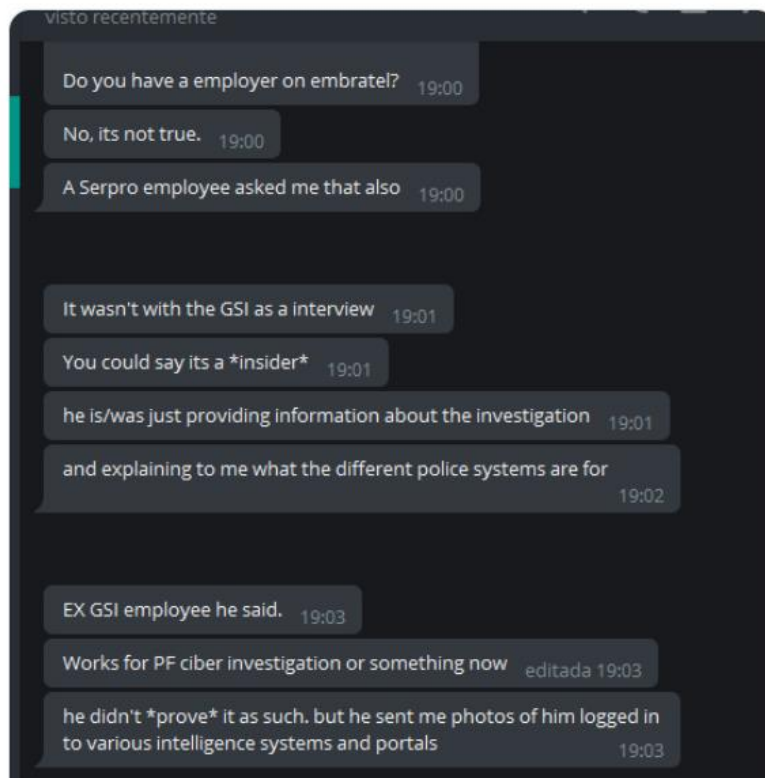

Felipe Payão 
@felipepayao

...

Admin/Líder do grupo Lapsus (ataque ao Ministério da Saúde)

- Confirma participação de agente interno em investigação
- Agente interno afirma ser ex-funcionário do GSI (Gabinete de Segurança Institucional)
- Agente interno agora trabalha na Polícia Federal

<https://twitter.com/felipepayao/status/1470544481942446083/photo/1>

- "Administrator passwords were supposedly publicly exposed - which facilitated unauthorized access by cybercriminals.
- Lapsus Leader confirms Globo's info and adds +"

Felipe Payão
@felipepayao

Atualização sobre ataque ao Ministério da Saúde

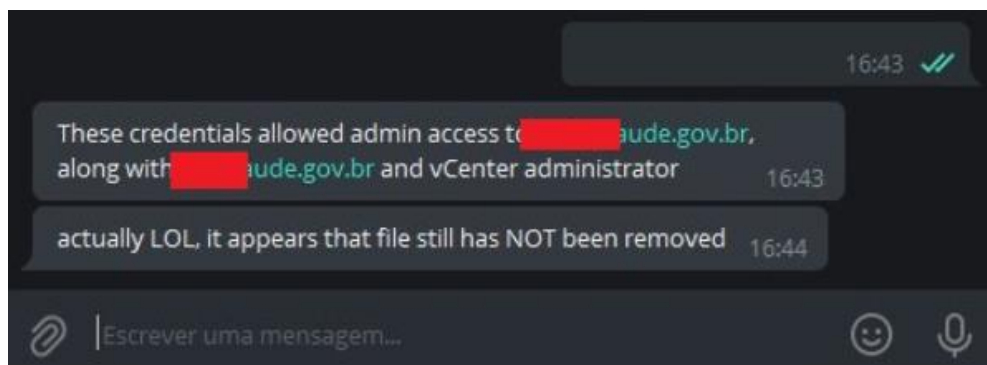

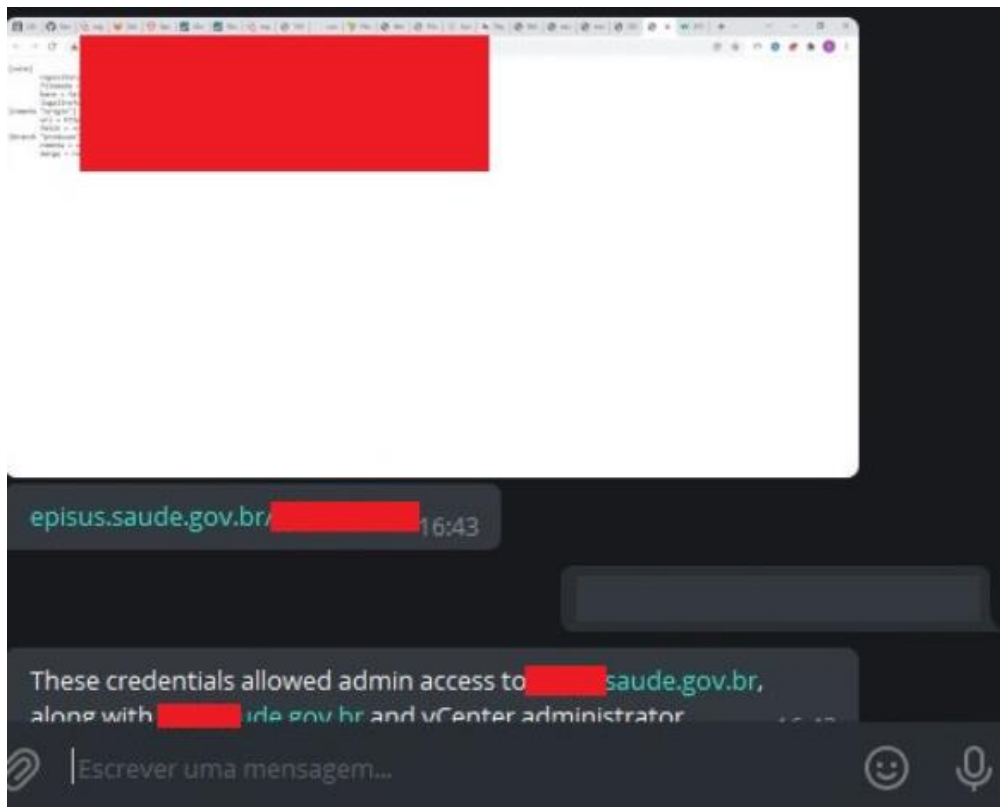

Senhas de administrador supostamente estavam expostas publicamente - o que facilitou o acesso não autorizado por cibercriminosos.

Líder do Lapsus confirma a info do Globo e adiciona +

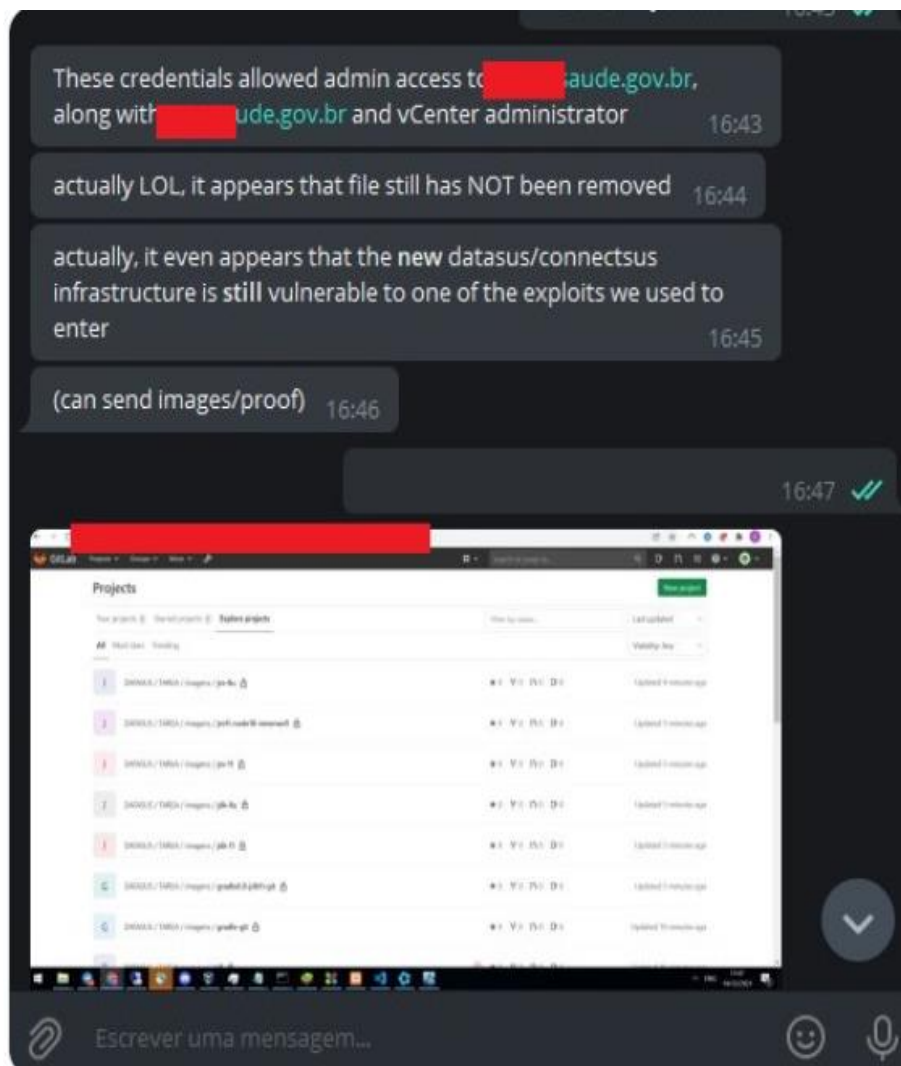

<https://twitter.com/felipepayao/status/1470843804131471365/photo/1>

- “According to the leader, the credentials are STILL exposed”

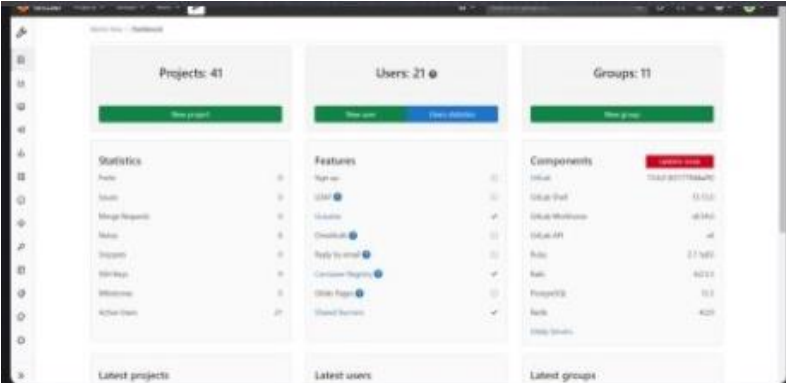

<https://twitter.com/felipepayao/status/1470844368412102671/photo/1>

- “The new infrastructure would also be vulnerable”

<https://twitter.com/felipepayao/status/1470845426429534216>

- “Even the supposed exposed credential was revealed by the leader of the group”

Actually! here is the administrator login.

[saude.gov.br/](#)
administrator

MFA Key: 7A[REDACTED]

Its important to note, i have no idea how they managed to install a vulnerable version again today.

This vulnerability was officially patched by GitLab ~5 months ago, however both the servers were still vulnerable. Along with various other issues (one of the source codes containing root AWS keys)

- "A DNS redirection (DNS Hijacking) was performed at the Brazilian Ministry of Health"

Felipe Payão 
@felipepayao

...

Lapsus Group

- Formado por colombianos e espanhóis, não haveriam brasileiros envolvidos
- Não há relação com a alteração de dados cadastrais de políticos
- O grupo existe há 4 meses, novo na cena
- Foi realizado um redirecionamento de DNS (DNS Hijacking) no ministério

- "Lapsus sent as evidence the alleged access to AWS used by the government"

Felipe Payão
@felipepayao

...

Lapsus enviou como prova o suposto acesso ao AWS usado pelo governo

O ataque ao AWS é mais plausível que DNS e ransomware, como foi levantado previamente

LAPSUS\$ leader

- “Since December 10, 2021, the lapsus group claimed the attack on the Brazilian Ministry of Health (...)
- The leader of the team is called Alexander Pavlov who presents himself with a profile image of Kim Jong-un supreme leader of north Korea”

Voltando ao Lapsus

Desde o dia 10 de dezembro de 2021 quando o Grupo Lapsus reivindicou o ataque ao Ministério da Saúde do Brasil, um canal foi aberto no Telegram para que os participantes da equipe informassem suas ações. Isso acontece até hoje.

Além disso, o canal é aberto para qualquer pessoa entrar e comentar. Por isso, é comum ter conversas com milhares de mensagens e assuntos dos mais variados possíveis: o canal do Lapsus virou um ponto de encontro.

O líder da equipe tem nick, é Alexander Pavlov, que ironicamente se apresenta com uma imagem de perfil de Kim Jong-un, Líder Supremo da Coreia do Norte.

<https://www.tecmundo.com.br/seguranca/231461-cibercrime-espetaculo-reconhecimento-entrevista-lapsus.htm>

Correios - 23 Dez 2021

- “The group announced its involvement in the downfall of the postal service's website in a telegram post.
- We announce a cyber-attack against Correios.com.br
- Services are currently offline!
- More info coming soon”

O grupo anunciou envolvimento na queda do site dos Correios em uma publicação no Telegram realizada hoje (23). “Anunciamos um ataque cibernético contra o Correios.com.br. Os serviços estão atualmente offline!”, diz a publicação, em espanhol. Segundo o grupo, mais detalhes sobre a ação serão revelados em breve.

<https://www.tecmundo.com.br/internet/231002-site-correios-fora-ar-ter-sido-atacado.htm>

CLARO - 30 Dez 2021

- "Lapsus (from the attack on the Ministry of Health) claims that he is responsible for the instability at Claro."

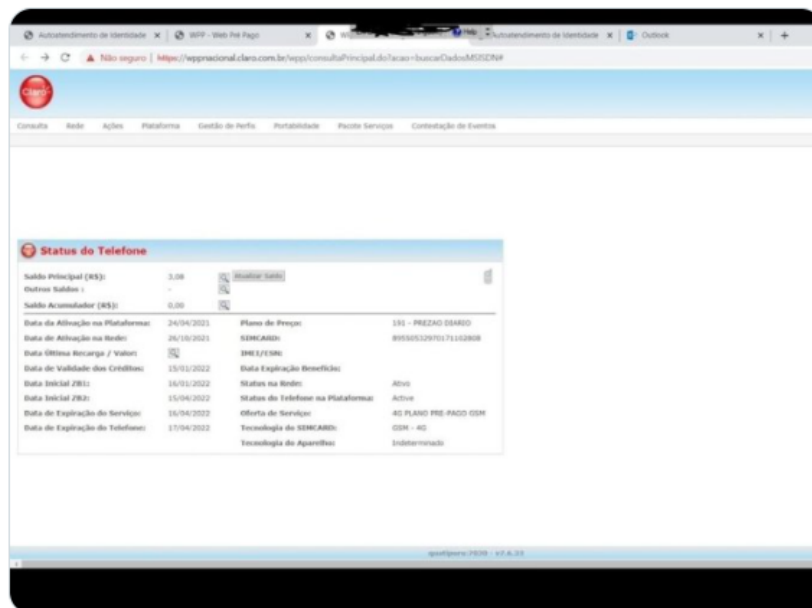

Felipe Payão ✓
@felipepayao

...

Grupo cibercriminoso Lapsus (do ataque ao Ministério da Saúde) afirma que é o responsável pela instabilidade na Claro.

Sem provas até o momento, afirmam terem recolhido 10000tb de informações

<https://twitter.com/felipepayao/status/1476669261556985856>

- "As "evidence" supposed internal accesses were published in panels"
- "The modus operandi would be the same as the attack on the Ministry of Health"

Felipe Payão 
@felipepayao

...

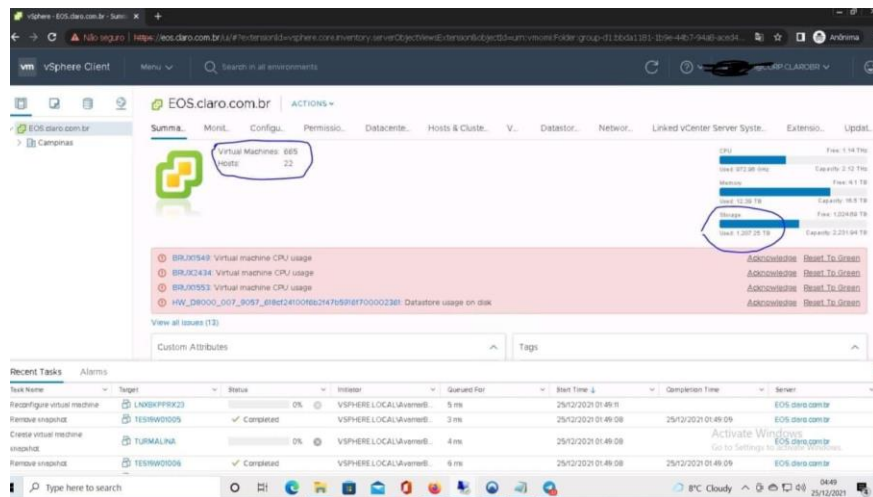

Foram publicados como "prova" supostos acessos
internos em painéis

O modus operandi seria o mesmo do ataque ao
Ministério da Saúde

- "Supposed access to SS7"

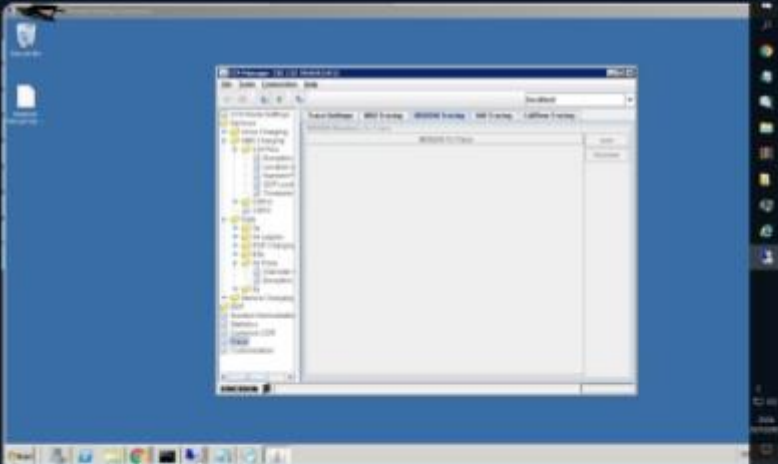

Felipe Payão

@felipepayao

Suposto acesso ao SS7 e rede com arquivos jurídicos

The network drive \\10.1.104.35\\JD_Nextel\\Wire_Tap\\ contains files such as court warrants for wiretap and such. We only got a partial VHDX dump of this one. During our next intrusion we will copy and send these.

18:41

This is essentially access to the SS7 system. Myself i am not a expert in telecom infrastructure. But this could certainly of been used by us to wiretap customers

18:42

<https://twitter.com/felipepayao/status/1476672198131736590/photo/1>

- “Source code”

```

CLARO HACKED

Oi.

Escrevemos para anunciar uma violação.

Informamos que a Claro, Embratel e NET sofreram uma grande violação de dados, no mês passado estivemos rodando para vários sistemas.

Os sistemas que acessamos: Muitos AWS, 2x Gitlab, SVN, x5 vCenter (MCK, CPQCLOUD, EOS, ODIN), armazenamento Dell EMC, todas as caixas de entrada, Telecom / SS7, Vigia (interceptação policial), MTAWEB e WPP (gerenciamento de cliente), e muito mais!

A quantidade total de dados aos quais tivemos acesso excede 10pb ~ 10.000 TB, incluindo informações do cliente, infraestrutura de telecomunicações, Documentos jurídicos, pedidos de escuta telefônica, código-fonte, e-mails.

https://twitter.com/day_hookahruiva/status/1476780180760932352/photo/1

Embora tenhamos obtido apenas uma pequena parte dos dados (as coisas importantes, legal, escuta telefônica, códigos src, svn)

Solicitamos que um representante da Claro nos contate em [@whitedoxbin](#) ou envie-nos um e-mail saudegroup@ctemplar.com

Nós chegaremos a um acordo, onde tal eu apago os dados em troca de uma pequena recompensa / taxa.

Caso contrário, seremos forçados a compartilhar os dados com os olhos do público!

Devo acrescentar que o vazamento de ordens jurídicas confidenciais e escutas telefônicas causaria grandes problemas de aplicação da lei (o suspeito saberá que estão sendo vigiados) \\ [10.1.104.35](#) \ JD_Nextel \ Wire_Tap \\ e várias outras áreas, como Vigia

Obrigado! Bom dia!

https://twitter.com/day_hookahruiva/status/1476780209810595842/photo/1

I show you something very strange 4:16 PM

first 5 lines of the users table 4:17 PM

```

```

white is the 5th person registered on the site, but nobody hears of him until he purchases the site

4:17 PM

imo he is just an alt of one of the regular admins

4:17 PM

id = 5

4:17 PM

kt is the ad

Wednesday, January 5, 2022 4:17:37 PM WET

but then kt must know him

4:17 PM

yeah idk

4:18 PM

anyway, db leak was very funny, that is all that really matters to me

4:18 PM

Kk so

4:22 PM

██████████ had some false accusations about being pedophiles or whatever so they decided to sell doxbn

4:22 PM

They sold it to a man named Alexander Pavlov or as you know him @whitedoxbin

4:23 PM

so they sold it to him for a price approximately about 75k

4:23 PM

So he now owned it for like 2 months

4:23 PM

Then he gave up on doxbn

4:23 PM

So he was selling doxbn again

4:24 PM

So he sold it to ██████████ and ██████████ back for 15k

4:24 PM

Then he felt like he got scammed so he leaked the user database of doxbn

4:24 PM

As you can see here:

4:25 PM

Impresa 2 Jan 2021

- “As far as it has been possible to ascertain so far, subject to technical analyzes that are still taking place, the attackers accessed the means of controlling the AWS cloud platform, as well as the control panels of external services used to communicate with subscribers and subscribers, thus carrying out sending unsolicited communication (email and SMS).
- The Impresa group managed to regain control of the cloud during the afternoon of January 2”

P: Como se processou o ataque informático?

R: Tanto quanto foi possível apurar até ao momento, sujeito a análises técnicas que ainda decorrem, os atacantes acederam aos meios de controlo da plataforma de cloud AWS, bem como aos painéis de controlo de serviços externos utilizados para comunicar com os assinantes e subscritores, realizando o envio de comunicações não solicitadas (emails e SMS). O Grupo Impresa conseguiu retomar o controlo da *cloud* durante a tarde do dia 2 de janeiro.

Lapsus Group - Ransomware

NEW DOX and more information and bounty on his head

[illegible]

██████████ is affiliated with a wannabe ransomware group known as 'Lapsus\$', who has been extorting & "hacking" several organizations such as Impresa's Amazon account, SIC and Espresso newspaper.

██████████ has since claimed to have moved to Spain (Explains why he is no longer living at his current residence).

- The boys enjoying their trip to his house.
- Picture of mothers house.
- Another picture / House # visible.
- Assumed step fathers vehicle pulling into driveway.

I'm sure this story isn't over. Will keep this updated if anything further happens.

Dear RF community,

We are LAPSUS GROUP and we are known for past attacks on Brazil Ministry, Courier services and IMPRESA group, Expresso newspaper, SIC PT television channel.

Today we HACKED portuguese parliament network and access 300+ aspen applications on Microsoft IIS srv, SOAP apis, DLL, a lot of databases (MSSQL, Oracle Managem Data) containing sensitive gov related info, politicians Personal info and political parties configurations, plaintext passwords, and so on..

Systems have old microsoft technology, unmaintained, weak applications, bad programming & poor security practices)) thus we exfiltrate a lot of critical information from internal systems... the servers belong to great Windows network!

Target: www.parlamento.pt

PRICE TABLE:

- [+] Data DUMPS min_offer \$15000 hitcoin
- [+] Backdoor Server ACCESS (ask PM or mail)

Contact: lapsusgroup@protonmail.com

Proof:

- **IIS App Sites** <https://notes.anonpaste.org/?faa7b3a5b4e...bRNdWAVBZg>
- **Plaintext Passwords** <https://notes.anonpaste.org/?06d0a79a909...vvrF2yddmX>
- **IIS Directory Tree** <https://notes.anonpaste.org/?b6b2c7b810e...RFHm4h2mJG>
- **Internal AD SOAP api** <https://notes.anonpaste.org/?0fb1dbd8fa8...rZP8Vy8v8g>

“LAPSUS\$ itself confirmed that the attack was not theirs.”

In addition to that there are some patterns that we can observe that would be a different group, such as:

- The modus operandi of this attack is different from the previous ones.
- The contact method is different as this group wants to be contacted via @prontonmail.
- Linguistic signs in the post are also signs that are different groups.
- Lapsus has never used raid forums and everything he does advertises on his telegram channel.
